- + Emcee
- + Personalized Training and Consulting

*“Preparing your workforce for the future”*

## Providing the critical skillset for the future leaders

Ray is a **futurist**, passionate about helping individuals and organizations understand and develop the skills necessary to survive in the workplace of the future. He integrates this passion into all of his talks and training.

Ray offers a unique perspective to his speaking and training audiences by pulling on his experience as a senior corporate people manager, engineer, project manager, consultant, college adjunct instructor, and author. He loves to **turn the complex into easy-to-understand lessons** that lead to quick actions and steps to improve an organization. He takes the time to understand the culture of your organization and customizes the training to fit your specific needs.

### Popular Topics

*Customized to meet your needs*

- ❖ **Become a Design Thinker**
  - ❖ How to immerse yourself in your customer's world, innovate, be agile
- ❖ **Innovation Infusion**
  - ❖ How to integrate a process for innovation into your organization

  - ❖ How to approach problems in a purposeful, open minded way
- ❖ **Disruptive Leadership**
  - ❖ How to positively influence your teams by breaking them out of status quo
- ❖ **The Leader of the Future**

## Testimonials

Ray Waite has done an amazing job delivering several high-caliber educational presentations ... I'd be remiss if I didn't mention that Ray's audience participation is dynamic and engaging! He has earned rave reviews on each of the presentations he has made ...Ray Waite is a "tried and true" professional.

**Engineers Foundation of Ohio**

Ray has every characteristic and attribute of a knowledgeable, reliable and confident leader. His success is exemplary.

**Telecom Network Executive Engineer**
